CIRCULAR No..006

Sub: PU – Exam – MBBS Pondicherry University Regulations – Reg.

It is noticed that some of the medical colleges are not clear about the rules pertaining to Internal Assessment marks in MBBS Regulations. It is brought to the notice of all concerned that MBBS student as per PU MBBS Regulations, the student has to secure minimum IA marks as notified for each subject to become eligible to appear for University Examination. If they have not obtained the required minimum IA marks, the College should not permit them to appear for University Exam during that session. Only after securing minimum IA, they should apply/appear for exam. Even if the college has allowed the students to appear for University Exam without minimum IA marks, they will be declared "Fail" though they obtain pass marks in Theory & Practical, and action may be initiated against the principal of the college concerned. Hence all medical colleges are requested to follow regulations scrupulously from ensuing session, and permit the students to appear for University Examination after securing minimum IA in the concerned subject. The Colleges are requested to strictly adhere to the Circular No.51 regarding uploading of IA marks.

Further all students admitted to the course have to pay Registration fee to Examination Wing. The Colleges are requested to ensure they have paid registration fee for all candidates who are appearing for examination.

This may be brought to the notice of all MBBS students of all batches.
